

## Insight® For Educational Institution

*A Simplified Information System for Schools/Colleges*

Insight® Educational institute is designed to meet the growing need for a comprehensive information system to cater an educational institute administration. It is a vital software tool for any institute for handling frequently requested information. The information request may come from either the existing students or from the students' community who are interested to enroll. A typical information request may be in the form of the following:

- Corporate Information & Directory Services.
  - Student forms.
- Admission Procedure Information Services.
  - Exam details.
  - Exam schedules.
  - Eligibility criterion.
  - Total seats per class/section/stream.
  - Documents requirement.
  - Fee structure.
  - Admission schedules.
  - Applications.
- Result Information System.
- Student Status Enquiry System.
  - Fee submission status.
  - Assignment submission status.
  - Grades obtained.
  - Status of Parent Teacher Meet (PTM).  
May also provide a private two way voice mailbox so teachers and parents can send & receive voice messages.
- Automatic Appointment Systems.
  - Appointment with Class teacher.
  - Appointment with the Principal.
- Electronic Surveys
- Library Information System
- Automatic Tracking
  - Absentee Tracker/ Truancy reporting  
Automatically notifies parents when their child is absent. Unanswered calls are noted for follow-ups.
  - Homework Hotline  
Allows parents and guardians to dial in to listen to their children's current and future homework assignments.
  - Other Hotlines
    - μ
    - μ Automatic call-in announcements about immunizations and/ or other various College events.
    - μ Report emergency or weather closure.

There can be more customized applications which can be developed depending on the specific need of an institute. Insight® Educational Institute is a flexible CTI (Computer
